

THIEL SCAFFOLDING

SUPPORTING HEROES EVERYWHERE

If your company uses scaffolding you are probably looking for new ways to cut costs, reduce erection and dismantling times and improve safety because these issues all impact on your company's profitability.

That's why van Thiel United has developed a patented range of products and services designed to positively impact on cost, speed and safety. It's a range that has already provided significant competitive advantages to many companies in our home country, the Netherlands and it's now available to you.

We've been supporting the heroes in Holland who build scaffolding for over 20 years. Now, thanks to our recent geographic expansion, we are supporting heroes everywhere.

Let's talk about how we can support you.

SUPPORTING HEROES EVERYWHERE

HOW CAN WE SUPPORT YOUR BUSINESS?

1. By connecting... speed with safety

As a subcontractor you need scaffolding that is fast to erect because time is money in the building trade. But so is reputation for safety. That's why we combine the best of both worlds - the simple but ingenious THIEL® wedge coupler is secured in seconds, without bolts.

2.flexibility with strength

Thiel® scaffolding can match any shape your architects create. That's because the patented Tube-Lock® concept comprises discrete scaffold components that are lightweight and strong, providing flexibility, simplicity and fast erection and dismantling.

3.cost-reductions with longer lifetime

We also support your business in reducing costs since our products last longer in extreme weather conditions, are corrosion resistant and require no replacement parts nor maintenance.

OUR COMPETITORS PROVIDE PRODUCTS- WE PROVIDE SUPPORT
Support for your business
